## IOWAN HERE TO FIGHT SUFFRAGE

Field Agent of Antis Securing Signatures to Petitions in Chattanooga.

A professional lobbyist against suffrage legislation has come into Tennessee from Iowa to tell our people how they ought to line up on the federal amendment proposition.

For several days a stranger from Dubuque, Ia., has been circulating among the officials and lawyers endeavoring to secure signatures to a petition to congress against the submission of the amendment granting suffrage to women. This amendment will be voted on Jan. 10. The petitioner circulator signs himself, Field Agent Charles McLean, and says he is sent out by the National Association Opposed to Woman Suffrage.

This association is said to have a big barrel to use for this purpose. One contributor gives \$25,000 a year. Its agents are paid large salaries and have liberal expense accounts.

McLean is already known in Tennessee. He had charge of the lobby against woman's suffrage at the last session of the Tennessee legislature. Every morning the members of the house and senate found their desks piled with literature of a lurid character directed at the suffrage movement. The suffragists were accused of being in favor of "free love." The movement was connected up with the abolitionists of the antebellum period, for effect in the south.

The principal argument made was that by reason of federal woman's suffrage the south's representation would be reduced. Mr. McLean told a News reporter today that was the principal reason why he was circulating a petition in the south. He didn't explain how this reduction would be brought about under the constitution. Besides his work at Nashville, it is said that McLean conducted the lobby against suffrage in many of the western states. He has a wide reputation as to the efficiency of his methods, his ability to secure publicity in newspapers and to deliver the goods when the vote is taken.

It is said that the antis are alarmed at strength with the suffrage movement has shown in Tennessee. Besides Senator McKellar, Representatives Austin, Sells, Sims and Fisher are already committed to a favorable vote, and several others are seriously considering the matter.

The antisuffrage petitions circulated by this Iowa visitor are for the purpose of influencing Judge Moon, who has said that he might vote for the amendment, and to whom petitions have gone in signed by hundreds of the most influential citizens of this district of both parties asking that he vote for the amendment.

Local suffragists expressed themselves as very much pleased that the antis recognized the breaking of their ranks in this district and were sending in outside agents to bolster up their declining fortunes.

## JOHN HAWKS KILLED BY TRAIN AT EVANSVILLE

John Hawks, 63, of Evansville, Rhea county, was killed Thursday by train No. 9, on the Cincinnati Southern railway. It is said Hawks stepped from behind a freight train that was on a siding in front of the fast train. His legs were cut off and his skull fractured. He had been a farmer until a year ago.

## A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arsen from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and the four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. (Adv.)

## SHELBYVILLE BAKER'S INDIGESTION STOPPED BY VIN HEPATICA

In Letter to Druggist Ransdell, of That City, He Gives Vin Hepatica Credit for His Cure.

If you ever suffered from indigestion, constipation, sleeplessness or bad liver, just read what O. J. Eave, baker, of 410 W. Main street, Shelbyville, Ky., wrote to Mr. Ransdell, the druggist, of Sixth and Main streets, that city, and follow his example.

"I had been so bothered," writes Mr. Eave, "with poor digestion that I had lost my appetite. Nothing tasted good to me. Everything I ate soured on my stomach. I was in a horrible shape, couldn't sleep and would get up in the morning feeling as if I had had no rest at all. I tried and tried several remedies, with no results. "But seeing in the papers what Vin Hepatica had done for so many others, I decided to try it, and am now entirely relieved in every way. I eat heartily, my food digests well, sleep fine and I get up in the morning feeling better than I have in months, and I give Vin Hepatica the praise for it all."

The reason Vin Hepatica gives such prompt relief is because it is purely herbal. It is Nature's own medicine, extracted from eight of the best-known medicinal roots, herbs, barks and berries known to medical science.

## VALUATION OFFICE WORK INTENSIFIED

Government Operation of Railroads Increases Importance of This Department.

Government management of the railroad probably will have a great effect upon the work of the bureau of valuation of the interstate commerce commission located in Chattanooga. This organization which has been at work for four years, has recently been made one of the five bureaus of the commission. The others are located at Washington, Chicago, Kansas City and San Francisco. The bureau has charge of the valuation of all railroads in this district and is divided into three departments, engineering, accounting and land and law departments. Over 100 persons are employed in the offices and the field forces aggregate over 250. The bureau covers Indiana, Ohio, Tennessee, Kentucky, Mississippi, Alabama, South Carolina, Georgia, Florida, Panama and Porto Rico.

The valuation has been going on for four years and is not near complete. Under the government management plan, the work of this bureau may become more important than ever. It has been rumored that stockholders will be paid according to the value of the roads instead of the earnings, and that they will be allowed a fair profit on their investment. Figures used in reaching the amount due the stockholders will more than likely be obtained from these bureaus.

## ROCKWOOD OFFICERS HOLD CHATTANOOGAN

Youth of This City Charged With Burglary Two Houses in Neighboring Town.

Officers in Rockwood have arrested George Smallman, son of Charles Smallman, a carpenter of this city, claiming that he had robbed two houses in that city. Friday and Saturday nights of last week the homes of James Erwin and Mrs. J. F. Farwater were entered, and money and jewelry taken, amounting in the aggregate to several hundred dollars. Among the articles taken from the Farwater house was a 44 Smith & Wesson pistol, which was found on the person of Smallman.

## YEAR JUST PASSED MOST EVENTFUL OF COMPANY

Handsome Production Issued by the O. B. Andrews Company. Merging of Three Plants.

"Get Together" is the title of a handsome production in book form, being No. 10, volume 1, of January date, issued by the O. B. Andrews company, manufacturers of cartons, boxes and packing cases of all kinds. The company claims that the year 1917 was the most eventful and possibly will always be the most critical in the company's history. During the year the Acme Manufacturing company, Andrews Paper Box company and the O. B. Andrews company were consolidated into one, merging the first two with the latter.

During the year the company started its large folding box department; also the 4-1-wirebound department, as well as a co-operative store, which proved to be a great success. During the mid-year season lumber jumped to unheard-of prices, which resulted in the establishment of the band mill here and also a heavy investment at Fort Payne, Ala., where the company has large timber operations.

Following these operations came losses of numbers of the most valued employees through the army requirements. All this combined to make the bulk of contracts unprofitable. The best year saw the deathknell of the mail order whisky houses, which wiped out over half of the corrugated fiber customers, necessitating a complete change in that department.

On the whole, the company claims that 1917 was not what was desired, but in view of conditions and obstacles, the company considers it did wonderfully well.

## WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of Danderine at any drug store for a few cents, pour a little in your hand and rub well into the scalp. After several applications all dandruff disappears and the hair stops coming out. (Adv.)
